

ΕΝΕΡΓΕΙΕΣ ΟΜΑΔΑΣ ΠΕΖΙΚΟΥ ΣΕ ΠΕΡΙΠΤΩΣΗ ΠΟΥ ΒΡΕΘΕΙ ΣΕ ΥΠΟΠΤΗ ΠΕΡΙΟΧΗ

ΣΤΑΜΑΤΑΜΕ ΤΗΝ ΚΙΝΗΣΗ ΑΜΕΣΩΣ

ΕΝΗΜΕΡΩΝΟΥΜΕ ΤΟΥΣ ΚΟΝΤΙΝΟΥΣ "ΣΤΟΠ ΝΑΡΚΕΣ"

ΕΝΗΜΕΡΩΝΟΥΜΕ ΜΕΣΩ ΑΣΥΡΜΑΤΟΥ ΤΟΥΣ ΥΠΟΛΟΙΠΟΥΣ

ΕΚΤΙΜΗΣΗ ΤΗΣ ΚΑΤΑΣΤΑΣΗΣ (περιμένουμε βοήθεια ή ενεργούμε μόνοι μας, τι άλλους μηχανισμούς μπορώ να δω, πιο κοντινό σκληρό έδαφος, εχθρική παρουσία, απώλειες)

ΑΝΑΦΟΡΑ (9line ,EOD REPORT,CASUALTY REPORT)

ΕΝΕΡΓΕΙΕΣ (κοιτάμε, αισθανόμαστε, ψάχνουμε

σημαδεύουμε, αποφευγουμε, συνεχίζουμε)

Remember your

OPERATIONAL MINE ENCOUNTER DRILL

"The senior uninjured commander in the minefield, ordered everyone to remain absolutely firm and directed that no one else should attempt to move in order to avoid the very high risk of further casualties being sustained" (at this point the above unit had sustained 7 casualties from AP blast mines).

STOP — Stop moving immediately

WARN — Issue a warning to others
"STOP MINES"

REPORT — Report by radio
"CONTACT EXPLOSION WAIT OUT"

ASSESS — Assess your plan of action

REPORT — Report by radio
9 Liner (Casualty report)
10 liner (EOD Report)

ACT — Stay still and await assistance or
LOOK - FEEL - PROD to safety . If you come across a suspicious area then **MARK - AVOID - MOVE ON.**

Think, can you use a metal detector in this situation, if so:
LOOK - FEEL - METAL DETECT to safety

 **BE AWARE MINES DON'T CARE**  **BE AWARE MINES DON'T CARE**

Mine Awareness Basics

- DO NOT leave the hard standing
- DO NOT park or drive on verges
- DO NOT enter uncleared buildings
- DO NOT use uncleared routes
- DO NOT become a military tourist
- DO NOT pick up souvenirs

Where minefields are found

- Confrontation lines
- Borders
- Old military positions
- Strategic areas
- Unmade roads and tracks
- Disused buildings

Always stay alert for other combat indicators:

Local Behaviour	Ground Sign	Blast Signature	Mine Debris
Not using fields	Disturbance	Scorching	Parts of mines
Not using routes	Patterns	Craters	Packaging
Injured animals	Discolouration	Strike marks	Tripwires

NIC Instruments Personal Mine Extraction Kit.

NSN: 4240-99-458-9732

Qty:	Contents	NSN:
1	Mine Prodder	6665-99-773-7447
	Daylight Route Marking System - Can be stuck in ground or laid on hard ground.	
5	Red (Suspect)	1385-99-870-4657
20	White (Safe)	1385-99-400-2295
	Night Route Marking System	
5	Red Cyalumes (Suspect)	1385-99-291-1414
20	Green Cyalumes (Safe)	1385-99-667-2287
1	Trip Wire Feeler	6665-99-990-8986
1	Aide Memoir	6665-99-667-4019
1	Storage Pouch	6665-99-733-1445

Remember minefield marking signs and local markings:

Cairns of stones marking dangerous areas.

Painted rocks, red pointing to danger and white to safe areas.

Look out for anything unusual that may indicate danger.

Less obvious mines or UXO may be well marked.

OPERATIONAL MINE ENCOUNTER DRILL STOP:

Stop moving immediately.

WARN:

Issue warning to others nearby "STOP, MINES".

REPORT :

Report by radio "Contact explosion, wait out".

ASSESS:

Plan of action: stay put or self extract.
What other mines or indicators can be seen.
Location of the nearest hard standing.
EOD or Engr assistance available.
CASEVAC available / required.
Are other agencies required.
Enemy action.
Casualties.

REPORT:

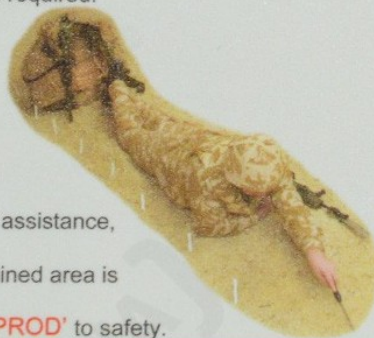

Casualty report.
EOD Report.

ACT:

Stay still and await assistance,
OR
If extraction from mined area is essential then:

'LOOK - FEEL - PROD' to safety.

Can you use a metal detector in this situation/location?
If so: 'LOOK - FEEL - METAL DETECT' to safety.

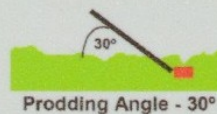

How to Look - Feel - Prod

Look For any visible signs of mine action or combat indicators.

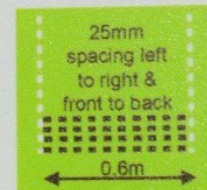

Feel If there is a tripwire threat, use tripwire finder to detect any tripwires, mark & avoid. Then feel for any protruding fuses or mine components.

Prod Every 25mm across a 0.6m lane at a 30° angle to the horizontal and, if ground conditions permit, to a depth of 75mm. Do not 'stab' the ground or use excessive force but prod **slowly and firmly**. Adopt the **prone position with legs crossed**. Remove webbing and lay weapon by your side.

Prodding Matrix

Prodding Angle - 30°

IF YOU FIND A MINE

Mark and avoid. Use red marker 300mm back from the suspect area.

Move around. Do not step over or touch.

Do not uncover to identify mine type. **Do not** cut or tie tape to tripwires.
